RESPONSE

Dear Sir:

This Response is responsive to the Office Action
mailed on March 15, 2004.

The Examiner has rejected claims 1-28 under the judicially created doctrine of obviousness type double patenting as being unpatentable over U.S. patent no. 6,024,301 to Hurley.

U.S. patent no. 6,024,301 is commonly owned by the assignee of the present invention, Combustion Components Associates, Inc. A Terminal Disclaimer is submitted herewith to overcome the double patenting rejection based

on U.S. patent no. 6,024,301. Withdrawal of the double patenting rejection is respectfully requested.

The Examiner is respectfully requested to reconsider this application, allow each of the pending claims and to pass this application on to an early issue. If there are any remaining issues that need to be addressed in order to place this application into condition for allowance, the Examiner is requested to telephone Applicants' undersigned attorney.

Respectfully submitted,
